

## Testimonials

"Excellent Business Partner very responsive to our needs. Did great Web Design work. I would defiantly work with Matt again in the future."

Scott Helgesen - <http://www.phoenix-ink.com>

Matt is an amazing web designer with a knack for creating classy, well-built websites. Not only does Matt create beautiful looking sites, he understands how to set up the back end in order to improve search engine optimization (SEO). Matt's keen development results in getting the people you want to your site without having to click to page 2 on Google, Yahoo or any other search engine.

Chris Sigfrids - Penton Media

I was very fortunate to have Matt design the website for my business. He had fresh creative ideas, an energetic perspective and was very knowledgeable and professional. He explained the technical side of the design in common-sense easy-to-understand language and made sure I understood each part of the process. People who have visited the site always comment on how great it is and there is usually a "Wow" somewhere in their compliment. I appreciate all his hard work, time and energy he poured into the site. Thanks so much Matt!\*

Noelle Padilla - <http://www.noellelaw.com>

"Hands down, the vast majority of my clients find me and hire me because of my website. My practice would not be what it is today—experienced its growth—without it. I am frequently complimented on its professional appearance, and it has without a doubt provided the best Return-On-Investment of my advertising dollars. Thank you Matt, for your hard work and creativity."

Jean Dhority RM, CPM - <http://www.heritagehomebirth.com/>

"I have been extremely happy with my web design. My clients have found it easy to view and I have received several compliments on the design and uniqueness on the site. I have also seen an increase in my business as a direct result of the web site. I am reaching clients who didn't know I existed! I plan on continuing my business relationship with Matt McMillian for all my web design needs in the future."
